SAT Wars presents a roadmap for rethinking college admissions that moves us past the statistically weak and socially divisive SAT/ACT. The author advocates for evaluation tools with a greater focus on what youth actually accomplish in high school as a more reliable indicator of qualities that really matter in one’s life and to one’s ability to contribute to society. This up-to-date book features contributions by well-known experts, including a piece from Daniel Golden, who won a Pulitzer Prize for his reporting in the Wall Street Journal on admissions, and a chapter on alternative tests from Robert Sternberg, who is the world’s most-cited living authority on educational research.

As we continue to debate the use and misuse of standardized testing, SAT Wars will be important reading for a wide audience, including college administrators and faculty, high school guidance counselors, education journalists, and parents.

SAT Wars Features:

- An authoritative combination of voices, including college presidents, admissions deans, scholars from economics, history, and sociology, and test-industry participants.
- New information on the racial and gender biases built into the SAT.
- The only independent case studies of the limitations of the new SAT.
- A step-by-step guide on how college admissions can go test-optional.
- Alternative tests to SAT/ACT developed by Robert Sternberg.

Joseph A. Soares is Professor of Sociology at Wake Forest University, Winston-Salem, North Carolina.
